ENERVIEW SECUREPLUS 

SECURITY GLASS

SEALED UNIT WITH SECUREPLUS GLASS

- 1** PVB Laminate Interlayer
- 2** Thermal Spacer

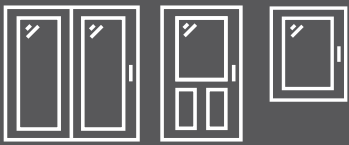

AVAILABLE IN DOUBLE AND TRIPLE PANE
UNITS WITH PRIVACY GLASS

Enerview Windows & Doors offer SecurePlus units with security glass made in-house, giving you faster lead times, unbeatable value, and industry-leading protection across every product line – windows, patio and entry doors.

- ✓ **ENHANCED SECURITY**
Laminated glass resists forced entry; shards remain bonded to the interlayer, making penetration difficult.
- ✓ **ACOUSTIC COMFORT**
Reduce traffic and outdoor noise with superior sound dampening.
- ✓ **UV PROTECTION & ENERGY SAVINGS**
Blocks up to 99% of harmful UV rays while maintaining Low-E thermal performance.

APPLICATIONS ACROSS ALL PRODUCTS

- ✓ **WINDOW SERIES:**
Prima, STG450, Euro
- ✓ **ENTRY DOORS & SIDELIGHTS**
- ✓ **PATIO DOORS**

SECUREPLUS 

SECURITY GLASS OPTION

The glass has cracked in a radial spiderweb pattern, but remains intact – glass fragments adhere to interlayer.

TEMPERED GLASS OPTION

Tempered glass can be shattered with a small piece of metal, breaking into a dense, fine network of small cracks across the entire pane that creates a frosted look.

SECURITY GLASS CAN BE FABRICATED INTO DOUBLE OR TRIPLE PANE UNITS

Composition	Two glass layers with a thin security film
Unit Configuration	Double pane; triple pane (limited sizes)
Breakage Behavior	Cracks but remains intact. Glass fragments adhere to interlayer.
Security Resistance	Breaks safely, offers resistance
Sound Reduction	Acoustic dampening
Privacy Glass	Available in triple pane units
UV Protection	Blocks up to 99% of harmful UV rays
Energy Efficiency	Comparable with Low-E & Argon gas
Code Compliance	Meets building safety codes for glass near floors/doors
Price Point	Cost-effective safety solution with Enerview Program

Unlike competitors who rely on limited third-party supply, Enerview controls the full process under one roof: cutting, laminating, sealing, and assembling your insulated glass units. The result is:

- ✓ Consistent quality
- ✓ Lower costs
- ✓ Reliable delivery times
- ✓ Exclusive dealer advantage
